

Aktuel information om coronavirus og Computerworlds konferencer

Computerworld Events følger situationen omkring coronavirus tæt for at sikre, at alle vores gæster trygt kan deltage på vores konferencer.

Vi opfordrer derfor alle deltagere og partnere til at holde sig orienteret på Sundhedsstyrelsens side om coronavirus. Informationerne fra Sundhedsstyrelsen kan findes her: <https://www.sst.dk/corona>

For personer, der er udrejst fra et af de særlige risikoområder, primært Kina, Sydkorea, Hong Kong, Singapore, Japan, Iran og visse dele af Italien indenfor de sidste 14 dage, anbefaler Sundhedsstyrelsen at man bliver hjemme indtil 14. dag fra udrejse fra risikoområdet.

Computerworld Events har derfor, siden starten af marts 2020 og før Sundhedsstyrelsens udmelding, opfordret tilmeldte til at følge nedenstående retningslinjer.

Vi opfordrer dig samtidig til at følge nedenstående gode råd:

- Hvis du er syg, sløj eller har rejst i et af risikoområderne, opfordrer vi dig til venligst at blive hjemme
- Husk god håndhygiejne, primært håndvask, evt. hånddesinfektion, hvis hænderne er rene og tørre
- Host eller nys i engangslommetørklæde, alternativt i albuebøjningen

Current information about Computerworld Events and the coronavirus

Computerworld Events is monitoring the current developments closely to ensure that our conferences are safe and secure.

As part of this, we strongly advise all partners and attendees to follow the recommendations from the Danish Health Authority about the current corona outbreak. The relevant and updated information about the outbreak in Denmark can be found on here <https://www.sst.dk/da/Viden/Smitsomme-sygdomme/Smitsomme-sygdomme-AA/Coronavirus/Spoergsmaal-og-svar/Questions-and-answers> (in English) and here <https://www.sst.dk/corona> (in Danish).

Currently, The Danish Health Authorities recommends a self-imposed 14 days home quarantine for all travelers returning from countries such as China, Hong Kong, Singapore, South Korea, Japan, Iran, and some Italian regions.

To ensure the safety of our participants Computerworld Events have asked all attendees to follow any updates from the Danish Health Authorities and to follow a set of guidelines at our upcoming events.

Please ensure that you as a participant follow these important guidelines

- Please remain at home if you feel ill, experience flu-like symptoms or have recently returned from one of the at-risk countries described by the Danish Health Authorities
- Remember to wash your hands often and thoroughly with water and soap. Alternatively, use hand sanitizer - which will be provided at the venue
- Ensure correct hygiene around food
