10:05 - 10:30	**Cloud data governance in a hybrid environment** Per Olav Nymo, Director Consulting Expert, CGI Norway
10:30 - 10:40	**Q&A**
10:40 - 10:40	**Tak for i dag** Michael Svendsen, Computerworld freelance journalist

09:00 - 09:05: Introduction

Michael Svendsen
Computerworld freelance journalist

09:05 - 09:30: The importance of preparing your cloud journey

Jens Christian Volhøj
Director, Scandinavia Cloud Practice
CGI Denmark / Partner

A solid groundwork is the key to success for any cloud transformation. So, what considerations and work are vital prior to the transformation process. This presentation offers insights in the preparations you need to do.

09:30 - 09:35: Q&A

09:35 - 10:00: How to migrate your old data warehouse to a modern data platform in the cloud

Magnus Ericsson
Advisor Data Advantage
CGI Sweden / Partner

Transforming a data warehouse to the cloud can be done in many ways. But what is the best practice? Learn about the key issues to consider before moving your old on-prem data warehouse to the cloud.

10:00 - 10:05: Q&A

10:05 - 10:30: Cloud data governance in a hybrid environment

Per Olav Nymo
Director Consulting Expert
CGI Norway / Partner

Learn how to ensure your data is secure, private, available, and usable in a hybrid environment. We will discuss the actions people must take, the processes they must follow, and the technology that supports them throughout the entire data life cycle. You will also learn how to set up a data governance process; from prioritizing areas for improvement to establishing a high quality data culture.

10:30 - 10:40: Q&A

10:40 - 10:40: Tak for i dag
